COUNCIL NEWS

Council Meeting Agenda Items

September 29 KBC meeting highlights:

1) Presentation from the Gitselasu Stewardship Society on the operations of Kitselas Canyon.

2) Council appointed Chris Apps, Director of Lands and Resources as defined in the Law effective April 4, 2017 and he has the jurisdiction to carry out all the responsibilities and duties of the Lands Director as set out in the Law.

MOTION #2022-09- 29(TWO)

Moved by: Councillor Jericho Collison for Kitselas Band Council to approve the Kitselas Band Council Resolutions. LMO-2022-09-29-#02 Lands Management Act, that the form of land registration/ recording forms presented to Council are satisfactory.

Seconded by: Councillor Gerald Nyce. Carried.

MOTION #2022-09- 29(THREE)

Moved by: Councillor Victor Wright for Kitselas Band Council to approve the Kitselas Band Council Resolutions LMO -2022- 09-29-#01, to confirm the appointment of Christopher Apps as the Lands Director as defined in the Law effective April 4, 2017 and he has the jurisdiction to carry out all the responsibilities and duties of the Lands Director as set out in the Law;

Seconded by: Councillor Geneva Mason. Carried.

3.) Cedar LNG

MOTION #2022-09- 29(FOUR)

Moved by: Councillor Gerald Nyce for Kitselas Band Council to approve the Kitselas Band Council Resolutions LMO -2022- 09-29-#03, Conditional Consent to Cedar LNG. The impact Assessment Agency of Canada has provided draft conditions to the project. Kitselas Band Council authorizes the Lands and Resource Department to prepare and send a letter granting the conditional consent to the Project.

Seconded by: Councillor Jericho Collison. Carried.

Keeping our Community Safe from Bears

FORECAST

GRIZZLY AND BLACK BEARS ARE ACTIVE IN KITSELAS TERRITORY, AND CAN BE DANGEROUS IF THEY COME INTO OUR COMMUNITIES. IT IS IMPORTANT WE ALL MAKE EFFORTS TO NOT ATTRACT BEARS.

Being Bear Aware

Bears go through a phase called hyperphagia, or extreme eating, in the fall. They will eat up to 20,000 calories per day to put on stores of fat in preparation for winter denning. During this period, typically ranging from November until April, bears will not eat, drink, urinate or defecate while in their dens. They become lethargic and their heart rate drops to about 10 beats per minute. Some black bears will not den if they can find food sources over the winter.

During this period of extreme eating, bears are more likely to enter communities seeking sources of food, especially if there are natural food crop failures. It is a critical time of year to keep all sources of food secure and out of reach of bears including solid waste containing organics (garbage), bird seed, barbeque grease, and domestic fruit and nuts. If you have native berries growing close to your home, especially windows and doorways, you will want to consider brushing them back.

Bear Aware: Please place your garbage/ compost on the morning of days scheduled for pickup

IMPORTANT

If you encounter a bear:

- Remember that most bears just want to be left alone.
- Identify yourself so the bear knows you are a human, and not prey.
- Pick up small children.
- Do not run — bears are like dogs in that they will chase fleeing animals.
- Speak calmly and in a low voice. Do not scream or make sudden movements.
- Back away slowly and calmly.

When it is safe to do so, call the BC Conservation Officer Service (24 hours) at 1-877-952-7277 (RAPP) or text #7277 to report your encounter.

Did You Know?

Grizzly bears travel widely, with female grizzlies in BC making their home ranges over 50–400 km² and with males having much larger home ranges of between 500–2,000 km² — almost as long as the distance between Terrace and Winnipeg (2,184 km)!

A cartoon-style illustration of a stack of six books. The books are colored from top to bottom: light blue, yellow, blue, orange, green, and brown. They are stacked on a thick red base. The books have thick spines and are shown from a slightly angled perspective. A faint watermark is visible in the center of the stack.
