## Kitselas Geothermal Inc. Open House

Kitselas Geothermal Inc. (KGI) invites you to attend an Open House about our Fuel for Reconciliation Project near Lakelse Lake. This is a renewable energy project that could utilize geothermal heat from the M'deek reservoir. Geothermal heat can be used as a substitution for fossil fuels.

The Open House provides an opportunity to learn about our upcoming drilling activities. It is also an opportunity for us to hear your thoughts about the project.

Our commitment to the community is to ensure that there is a clear understanding of the drilling activities and their timeline to completion, as well as geothermal energy's potential benefits and impacts.

Families are welcome at the Open House and light refreshments will be served.
